Portfolio: anthonybaldoza.github.io/portfolio-v2

PROFESSIONAL SUMMARY

3rd-year BS Information Technology student seeking a Full Stack Developer role. Experienced in building REST APIs and web applications with Java (Spring Boot) and C# (ASP.NET Core), relational databases (MySQL, PostgreSQL), and front-ends in HTML, CSS, and JavaScript. Led development of an e-commerce platform and a task management app as Lead Developer and built a tournament management system used by a local chess organization. Also builds 2D/3D browser games in JavaScript.

TECHNICAL SKILLS

Languages: Java, C#, JavaScript, SQL, Python, C

Frontend: HTML5, CSS3, JavaScript (Vanilla), Single-Page Applications

Backend: Spring Boot, ASP.NET Core Web API, REST API Development

Databases and ORM: MySQL, PostgreSQL, JPA/Hibernate, Entity Framework Core

Tools: Git, GitHub, Docker, Swagger, VS Code, Adobe XD, Canva

Currently Learning: PHP, Laravel, Responsive Web Design (freeCodeCamp), Introduction to IoT and Digital Transformation (Cisco Networking Academy, with DICT)

PROJECTS

CCS Pairing System | Java, Spring Boot, JPA, MySQL, HTML/CSS/JavaScript

GitHub: github.com/AnthonyBaldoza/Chess-Pairing-System

- Built a full-stack tournament management web app for Swiss-system chess events, used by the Calauan Chess Society for local tournaments
- Developed a Spring Boot REST API that generates Swiss pairings each round by score and rating while avoiding repeat opponents
- Persisted tournaments, players, matches, scores, and ratings in MySQL using Spring Data JPA
- Implemented player registration, results entry, automatic rating updates, and live standings with a plain HTML/JavaScript front-end

Pokédex Web App and API | C#, ASP.NET Core 10, Entity Framework Core, PostgreSQL, JavaScript

GitHub: github.com/AnthonyBaldoza/Pokédex-CSharp-Inte | Live demo: pokedex.runasp.net

- Built a full-stack Pokédex with a Game Boy-themed single-page app covering all 151 Generation I Pokémon
- Developed a RESTful API using N-layer architecture (Controller, Service, Repository, DbContext) with Swagger documentation
- Implemented full CRUD, real-time search, type filtering, base stat charts, evolution chain navigation, and Pokémon comparison
- Applied input validation and CORS configuration following a senior developer code review

TaskFlow | Python, HTML/CSS/JavaScript

GitHub: github.com/AnthonyBaldoza/Task-Flow | Live demo: taskflowapp.pythonanywhere.com

- Served as one of two Lead Developers on a task management web app with user sign-up and login
- Built task organization by category and priority, with search and filtering
- Implemented deadline tracking that shows tasks due today, due tomorrow, or overdue on the dashboard
- Added recurring daily, weekly, and monthly tasks that are re-created automatically when completed, plus CSV export of all tasks
- Deployed the app on PythonAnywhere

Auring Clothing PH - E-commerce and Inventory System | HTML5, CSS3, JavaScript, localStorage

GitHub: github.com/AnthonyBaldoza/AuringPh_E-Commerce_Web_Application | Live demo:

anthonybaldoza.github.io/AuringPh_E-Commerce_Web_Application

- Served as Lead Developer in a two-person team for an e-commerce web application with separate customer and admin sides
- Built customer features: sign-up, login, OTP verification flow, password recovery, product browsing, favorites, cart and checkout, order history, notifications, and profile management
- Built admin features: sales dashboard, order status management, user account management, product management (price, stock, brand), and customer messaging with invoice cards

Browser Games | JavaScript, Three.js, Astrocade

Profile: astrocade.com/profile/SolCrusader

- Designed and shipped 10+ browser-based 2D/3D games, including Last Standing, Beyblade Arena, and Frontline 1944
- Implemented game systems such as physics, AI opponents, progression and shop systems, and performance optimization (object pooling, LOD)

EDUCATION

Bachelor of Science in Information Technology | Polytechnic University of the Philippines - Calauan Campus | Expected Graduation: 2028

CERTIFICATIONS AND TRAININGS

- Diploma in Information Technology Support, Alison (alison.com/verify/6434bfa715)
- Free Coding Bootcamp: Basic Web Development, Zuiit / UP Nova (September 19, 2026)
